

SEMINAR: URODYNAMICS 2012: AVOID PROBLEMS WITH YOUR PATIENTS (AND YOURSELF). SEMINAR OF CLINICAL CASES

FINAL REPORT

Directed to: gynaecologists and urologists.
Number of hours: 1'30.
Place: Col·legi Oficial de Metges de Tarragona
Date: 17th January 2012

Summary

Association Continencia organised a seminar in Centre Mèdic Rambla Nova (Tarragona) in order to explain the importance of urodynamics test for correct diagnosis and treatment of patients with incontinence.

We explained the indications of urodynamics, the procedure, and structure of the medical report, finally we presented our service of pelvic floor rehabilitation.

At the end of the session there was a turn of doubts and questions and we want to highlight the interest between all the participants about intermittent catheterization.

Audience: 15 people.

Participants' assessment: (it was answered by 100% of audience)

Assessment from 0 to 5		
Speaker	A	B
MEAN	4,75	4,4

Quantitative part (from 0 to 5): the highest score was 5 and the lowest 3.

Qualitative part (free text).

Suggestions for another sessions
Treatment with BOTOX
Intermittent catheterization
Pelvic floor rehabilitation
Repeated urine infections
Incontinence surgery
More clinical cases
Urine retention
