

Directed to: urologists, gynecologists, nurses and specialized physiotherapists.

Number of hours: 9 H

Venue: Hospital Quirón Teknon.

Date: 24th and 25th October 2014

### Summary

The urodynamic unit of Hospital Quirón Teknon with the collaboration of Asociación Continencia and Fundación Teknon organized an Urogynaecological day in order to celebrate the 18th anniversary of the unit coordinated by Dr. JE Batista.

**The registration for the day reached 135 people, 10 days before we had to close because of room capacity.**

Throughout the conference, national and international speakers told us about kidney stones, voiding disorders and the different treatments: surgery for urinary incontinence, Kegel exercises, bladder catheterization, drug treatment etc, and their professional experience.

On Saturday, we were talking about the psychosocial aspect that affects the incontinent patients and it was taken place the practical workshop with Kari Bo about pelvic floor exercises.

During the session, it was talked about the importance of social media in medicine. Dr.Batista gave to Dr.Robles the award (Ipad Mini) for the Best Tweet.

Mr. José Agudo Navarro received a certificate of recognition to his professional career and his unconditional support to the professionals in functional urology in general and specially his support in Asociación Continentia.

As usual, the interaction of the attendees was encouraged throughout the presentations and they were requested to complete the evaluation sheet.

Audience: 129 people.
