Medical Center

Course features

> Multidisciplinary approach directed to professionals directly involved in urodynamic diagnosis (Urologists, Gynecologists, Nurses, Physiotherapists) who want to learn or refresh basic techniques.

> The objective is that participants acquire complete autonomy to **perform and interpret** urodynamic studies that respond to the demand of a Urology or Gynecology consultation.

> Its content and approach follow the recommendations of ICS

> 22 hours of face-to-face training in small groups (6-8 participants)

Theory, sessions (principles of Urodynamics made feasible) .

Sessions with patients (*)

Review of the same day patients' cases.

Sessions with patients held at 3 venues: URD Center (facility designed for Urodynamics practice and teaching), Centro Médico Teknon (Barcelona's leading private Hospital) and Clinica Diagonal.

Background

In September 2008 "Continentia" obtained the first ICS accreditation for its Urodynamics course (renewed in 2015 and 2018). First edition was held in 2008. In 21 previous editions delegates from Spain, Bulgaria, Hungary, Slovenia and Romania have been trained with a well-established methodology. Every new edition is fully booked.

Many of the former courses' attendees now run Urodynamic Units and are lead speakers in functional Urology: this is our cover letter.

() Delegates need to acknowledge the patients' right to refusal of observers at the examination room. However until now this has rarely occurred*

Faculty 2022

* Dr. Jose E. Batista Urodynamics coordinator Centro Médico Teknon and URD Centers, Barcelona, Spain

*Prof. Ajay Singla Director, Center for Pelvic Floor Disorder, Division of Urology, Department of Surgery, Beth Israel Deaconess Medical Center Harvard Medical School, Boston MA (*on line*)

*Dr. Diego Illanes Medical director, urogynecology and female pelvic floor medicine, Milford Regional/Division director, urogynecology, Tufts Medical Center. Boston MA.

**Anaïs Bassas Lead Urodynamics Technician Centro Médico Teknon

Dr. Elizabeth Corrales, Attending Urologist, Urodynamics Unit, Centro Medico Teknon

Dr. Damian Cuny, Fellow in Urodynamics, Urodynamics Unit, Centro Medico Teknon.

Iraia Lekué. Physiotherapist and Urodynamics Technician, Clinica Diagonal, Barcelona

Lidia Llort. Physiotherapist and Urodynamics Technician, URD Centers

(* course directors ** co-director, practical sessions coordinator)

PROGRAM

Monday May 30th . MORNING. 8.00 to 1.00 pm.

1 st URODINAMIC PRACTICE SESSION WITH PATIENTS.

Live connection to , at URD Center, Barcelona

1 pm h. LUNCH AT URD CENTER.

2 pm to 5 pm AFTERNOON SESSION

THEORETICAL MODULES 1 and 2

MODULE 1. Principles and foundations

> Basic principles of urodynamic techniques. JE Batista

> Meaning of voiding symptoms: questionnaires and voiding diariesç

MODULE 2 Basic urodynamic techniques>

Flowmetry. D. Cuny

Cystometry A Bassas

Pressure flow study JE Batista

Artifacts. A Bassas

Tuesday May 31st MORNING 9 am TO 1 pm URD Center / CM Teknon

2nd URODINAMIC PRACTICE SESSIONS WITH PATIENTS.

1pm. LUNCH

2 to 5 pm **THEORETICAL MODULES**

MODULE 3. Findings in major syndromes:

Overactive bladder Dr E. Corrales

Stress incontinence Dr. D. Illanes

Post prostatectomy incontinence. Dr. A. Singla

Outlet obstruction in males and females.

Detrusor contractility in patients with indwelling catheter JE Batista

Review of day's cases

Wednesday June 1st : MORNING 9.00 to 13.00

THEORETICAL MODULES MODULE 3.

Neurological control of micturition, neurogenic patterns and management.

Review of clinical cases from practical sessions.

Overview of special techniques:

Holter monitoring, Video urodynamics, Pediatrics

12.30 Course evaluation 13.00 Course ends.

COURSE IN ENGLISH, LIMITED TO 8 DELEGATES.

INFORMATION: abassas@uroclinica.net Course fee: 1400 Eur. (Inc. Tuition, materials and 2 work-lunch)
Nearby accommodation available upon request. Night & breakfast 106- 140 Eur / night.

Hands-On Training Course in Urodynamics

Organised By

Jose E Batista

Is Recognised By

The International Continence Society

As providing training in urodynamics that conforms to ICS standards, including a training course and assessment of participants' urodynamic experience

Valid for 3 years from 10 October 2018 ++ Extended to March 2023
Reference Number 101018
